LB 44, 44A, 90, 249

of wrongdoing under this amendment. The language is before you. It's in LB 249 but it is what the amendment is. I understand if you would have concerns on process. If the bill fails, if the amendment fails to succeed at this stage, I will offer it on Final Reading after we've gone through the practice of publishing it in the Journal and thereby adding to the cost and expense of the operation. This is a proven method of saving money. Understand that we're not pulling this out of a hat. The Thone administration recorded \$400,000 of savings over a three and a half year period at an investment of roughly \$10,000. Today, with our budget problems, don't we want to enlist the state employees as our allies in identifying efficiency? This amendment attempts to do that. I ask you to consider adopting it. I would urge you to make this amendment to LB 44. Thank you.
